Energy-efficient bottle cooler

To offer you a more energy-efficient version of our popular CEV bottle cooler, we have introduced this model with an EU energy class C.

This all black bottle cooler is perfect for creating elegant displays of wine, beer, or soft drinks. Use it as a larger upright backbar in bars and restaurants, or make your beverages stand out in retail environments.

The black interior combined with a glass door with LED lighting on the inside of the door frame makes sure that your products are always stylishly displayed. To fully release its marketing potential, have the bottle cooler with a LED illuminated canopy decorated nicely with customized branding.

The CEV range is available in white or black color options, with a right-hand hinged door or left-hand hinged door, and with or without a canopy.

Design and Material		Measures and Content		Power and Consumption	
Door No & Type		1 Temperature Range °C		Energy Class	
Tempered glass		Climate Class		Energy Consumption	kWh/24h
Door Reversible		Gross / Net Weight kg		Annual Energy Cons.	kWh/year
